GRADE 10 – TEST 10

Name: _____
Grade / Class: 10

ENGLISH

1. **Rewrite the sentence by changing it into reported speech:**
   The teacher said, "You must complete this project independently."
2. **Explain how tone can change the meaning of the same sentence in written communication.**
3. **Rewrite the sentence using a relative clause:**
   The scientist received an award. She developed a new vaccine.
4. **Identify the figure of speech used and explain its effect:**
   Time crept forward during the long examination.
5. **Write a descriptive paragraph about a place that becomes calm after sunset.**
6. **Choose the correct option and justify your answer:**
   He spoke (confident / confidently) during the presentation.
7. **Rewrite the sentence to show contrast using a suitable connector:**
   The experiment failed. Valuable data was collected.
8. **Explain the difference between a summary and a critique.**
9. **Write a short persuasive paragraph encouraging students to learn a second language.**
10. **Explain how character development helps readers understand a story's message.**

MATHEMATICS

1. **Factorize completely:**
   $2x^2 - 7x - 15$
2. **Solve the simultaneous equations:**
   $3a - 2b = 7$
   $a + b = 5$
3. **Find the value of k if the points (2, k), (4, 6), and (6, 10) are collinear.**
4. **Express 7/125 as a terminating decimal.**
5. **Calculate the volume of a cylinder with radius 7 cm and height 20 cm. Use $\pi = 22/7$.**
6. **Find the distance between the points (1, −4) and (5, 2).**
7. **Simplify:**
   $(3m^{-2} \times 6m^3) \div 9m$
8. **If the probability of rain on a given day is 0.35, what is the probability that it does not rain?**

9. **Solve the inequality and represent it on a number line:**
   $4x - 9 > 11$
10. **A shopkeeper gives a discount of 12 percent on an item marked at 2500. Find the selling price.**

PHYSICS

1. **Define momentum and explain how it depends on velocity.**
2. **Describe why objects appear weightless inside a freely falling elevator.**
3. **Explain the working principle of a hydraulic press.**
4. **State one practical application of electromagnetic induction.**
5. **Explain how sound travels through solids.**
6. **Define power and state its SI unit.**
7. **Describe one factor that affects the resistance of a conductor.**
8. **Explain why convex mirrors are used as security mirrors.**
9. **Describe energy transformation in a hydroelectric power station.**
10. **State one environmental advantage of renewable energy sources.**

CHEMISTRY

1. **Define isotope and explain why isotopes have similar chemical properties.**
2. **Explain the role of oxygen in combustion reactions.**
3. **Write the chemical formula of calcium nitrate and explain how it is formed.**
4. **Distinguish between strong acids and weak acids.**
5. **Explain how corrosion can be prevented by galvanization.**
6. **Define molar mass and explain its importance in calculations.**
7. **Describe one industrial use of ammonia.**
8. **Explain why bases feel slippery to touch.**
9. **Define precipitation reaction with one example.**
10. **Explain how chemical fertilizers affect soil quality over time.**

BIOLOGY

1. **Define homeostasis and explain its importance in humans.**
2. **Describe the function of red blood cells.**
3. **Explain how vaccination helps in disease prevention.**
4. **Define ecosystem and name its main components.**

5. **Describe the role of enzymes in digestion.**
6. **Explain the process of transpiration in plants.**
7. **Differentiate between inherited traits and acquired traits.**
8. **Describe one harmful effect of air pollution on living organisms.**
9. **Explain how the nervous system coordinates body activities.**
10. **Describe one method to conserve endangered species.**

COMPUTER SCIENCE / ICT

1. **Define database and explain why it is preferred over manual record keeping.**
2. **Explain the purpose of an operating system.**
3. **Describe one use of cloud computing in education.**
4. **Define algorithm and explain its importance in programming.**
5. **Explain the difference between hardware failure and software failure.**
6. **Describe how search engines retrieve information.**
7. **Explain one ethical issue related to social media use.**
8. **Define encryption and state why it is important.**
9. **Explain the function of a router in a network.**
10. **Describe how technology has changed communication methods.**

ISLAMIYAT

1. **Explain the concept of accountability in the Hereafter.**
2. **Describe the importance of honesty in trade according to Islam.**
3. **Explain the meaning of brotherhood in Islam.**
4. **Describe one social benefit of Zakat.**
5. **Explain the significance of intention before performing any good deed.**
6. **Describe the rights of neighbors in Islam.**
7. **Explain why seeking knowledge is emphasized in Islam.**
8. **Describe one lesson learned from the life of the Prophet Muhammad (PBUH).**
9. **Explain how Islam promotes peace in society.**
10. **Describe one Islamic teaching related to caring for the poor.**
