GRADE 10 – TEST 9

Name: _____
Grade / Class: 10

ENGLISH

1. **Rewrite the sentence by replacing the highlighted words with a more formal expression:**
   The manager put off the meeting due to unexpected circumstances.
2. **Identify whether the sentence is declarative, interrogative, imperative, or exclamatory, and explain your choice:**
   Please submit your assignment before Friday.
3. **Rewrite the sentence in the passive voice:**
   Scientists discovered a new method of water purification.
4. **Explain the difference between theme and moral in a literary text.**
5. **Write a paragraph explaining how media influences public opinion.**
6. **Choose the correct word and justify your choice:**
   The lecture was so (informative / informed) that students asked many questions.
7. **Rewrite the sentence using a conditional structure:**
   Hard work leads to success.
8. **Explain how imagery enhances understanding in poetry.**
9. **Write a brief dialogue showing disagreement expressed politely.**
10. **Write a short article on the importance of reading in the digital age.**

MATHEMATICS

1. **Simplify completely:**
   $(4a^2b \times 3ab^2) \div 6ab$
2. **Solve the equation:**
   $5(2y - 1) = 3y + 14$
3. **If the sum of interior angles of a polygon is 1260°, find the number of sides.**
4. **Calculate the gradient of the line joining the points (−2, 3) and (4, −9).**
5. **Express 0.00056 in standard form.**
6. **Find the area of a circle with radius 10.5 cm. Use $\pi = 22/7$.**
7. **If $\sin\theta = 1/2$ and θ is acute, find $\cos\theta$.**
8. **A bag contains red, blue, and green marbles. The probability of picking a blue marble is 3/10. If there are 15 blue marbles, find the total number of marbles.**

9. **Solve for x:**
   $x^2 - 9 = 0$
10. **The cost of an item increases from 800 to 920. Calculate the percentage increase.**

PHYSICS

1. **Define acceleration and explain how it differs from speed.**
2. **Explain why a satellite remains in orbit instead of falling directly to Earth.**
3. **State the principle of conservation of energy with an example.**
4. **Describe how pressure changes with depth in a liquid.**
5. **Explain one reason why copper is widely used in electrical wiring.**
6. **Define frequency and state its unit.**
7. **Explain how friction can be both useful and harmful.**
8. **Describe the working principle of a simple electric motor.**
9. **Explain why lightning is considered an electrical phenomenon.**
10. **State one safety precaution when handling electrical appliances.**

CHEMISTRY

1. **Define atomic number and explain its significance.**
2. **Explain why rusting occurs faster in coastal areas.**
3. **Write the word equation for the reaction between zinc and hydrochloric acid.**
4. **Differentiate between physical change and chemical change with reasons.**
5. **Explain the role of catalysts in chemical reactions.**
6. **What is meant by exothermic reactions? Give one example.**
7. **Describe one method used to separate insoluble solids from liquids.**
8. **Explain why acids should be diluted by adding acid to water, not water to acid.**
9. **Define covalent bonding and give one example.**
10. **Explain how air pollution affects chemical balance in the environment.**

BIOLOGY

1. **Define respiration and explain its importance to cells.**
2. **Describe the structure and function of the human heart.**
3. **Explain how plants respond to light.**
4. **Define adaptation and give one example from animals.**
5. **Explain the role of chlorophyll in plants.**

6. **Describe how the digestive system absorbs nutrients.**
7. **Explain the difference between asexual and sexual reproduction.**
8. **Define food chain and explain its importance.**
9. **Describe one cause and one prevention method of communicable diseases.**
10. **Explain the impact of deforestation on biodiversity.**

COMPUTER SCIENCE / ICT

1. **Define software and classify it into two main types.**
2. **Explain the purpose of an IP address.**
3. **What is a spreadsheet? Mention one educational use.**
4. **Explain how data backup protects information.**
5. **Describe one advantage and one disadvantage of online learning.**
6. **Define artificial intelligence in simple terms.**
7. **Explain the difference between wired and wireless networks.**
8. **What is cyberbullying? State one way to prevent it.**
9. **Describe the function of an antivirus program.**
10. **Explain why digital literacy is important for students today.**

ISLAMIYAT

1. **Explain the concept of sincerity (Ikhlas) in worship.**
2. **Describe the responsibilities of a Muslim toward society.**
3. **Explain the importance of patience during hardship in Islam.**
4. **What is the purpose of fasting beyond hunger and thirst?**
5. **Describe one quality of a just leader according to Islam.**
6. **Explain the concept of forgiveness with an example.**
7. **Define Amanah and explain its role in daily life.**
8. **Explain why backbiting is discouraged in Islam.**
9. **Describe how Islam guides economic fairness.**
10. **Explain one teaching of Islam related to environmental care.**
