Grade 6 – Test 10

Name: _____
Grade/Class: _____

Purpose:
This test evaluates students across all subjects from the global Grade 6 syllabus, ensuring unique and challenging questions.

Generation Date: 8 January 2026

Instructions:

1. **Attempt all questions.**
2. **Show all calculations and workings in Math and Science.**
3. **Draw and label diagrams wherever required.**
4. **Include steps and screenshots where ICT tasks are theoretical.**
5. **Use examples from daily life wherever applicable.**

English Language & Literature

1. **Read the passage:**
   "The library was quiet except for the occasional rustle of pages. Laila found a book on astronomy and became fascinated by the planets and stars."

- **Question: Which subject fascinated Laila and how did the environment help her concentration?**

2. **Write a story of 150 words about an unexpected journey that teaches a moral lesson.**
3. **Identify the verbs, prepositions, and adverbs in the following sentence:**
   "The cat swiftly jumped over the fence while the dog barked loudly."
4. **Rewrite the sentence in future perfect tense:**
   "The gardener waters the plants every morning."
5. **Summarize this paragraph in three sentences:**
   "Many animals migrate during specific seasons to find food and suitable climates. Birds often travel thousands of kilometers, while some mammals move shorter distances. Migration helps species survive environmental changes."

Mathematics

6. **A rectangular swimming pool has dimensions 20 m × 10 m × 2 m. Calculate the volume in cubic meters.**
7. **Solve for y:**

7y+5=2y+307y + 5 = 2y + 307y+5=2y+30

8. **A shop sold 50 bottles of juice at $1.80 each and 30 sandwiches at $2.50 each. Find the total revenue.**
9. **Find the mean, median, and mode of these numbers: 18, 20, 22, 20, 24, 26, 18, 20.**
10. **Draw a line graph showing the rainfall (mm) for each month: Jan 50, Feb 40, Mar 60, Apr 70, May 55.**
11. **Convert 12.5 kilometers into meters and 4500 milliliters into liters.**

Science

Biology
12. Draw and label the human digestive system and explain the function of the small intestine.

13. **Explain how photosynthesis supports life on Earth and write the chemical equation.**
14. **Name two types of bacteria used in food production and describe their role.**

Physics
15. Define force and calculate the force if a 10 kg object is accelerated at 3 m/s^2.

16. **Explain how sound travels through solids, liquids, and gases and give an example for each.**
17. **Describe how a pulley system reduces effort and provide one real-life example.**

Chemistry
18. Identify elements, compounds, and mixtures in the following: water, salt, sugar, air.

19. **Classify lemon juice, soap solution, and distilled water as acidic, basic, or neutral using pH knowledge.**

Environmental Science
20. Explain three methods to conserve water in daily life.

21. **Describe effects of deforestation on soil and local climate.**

Social Studies / Civics / Geography / History

22. **Explain the difference between absolute and relative location with examples.**
23. **Name five rivers of the world and describe one unique feature of the Nile River.**
24. **Write a paragraph on the achievements of the Ancient Indus Valley Civilization.**
25. **Explain the significance of civic duties in maintaining a healthy community.**
26. **Differentiate goods and services in the context of a small town market.**
27. **Discuss one important invention during the Renaissance and its influence on society.**

Islamiyat / Moral & Religious Education

28. **Explain the importance of Salah (prayer) in daily life.**
29. **Narrate a Hadith about helping the poor and describe its moral lesson.**
30. **List the five pillars of Islam and explain one in detail.**
31. **Describe three ways to demonstrate patience and respect at school.**

Information & Communication Technology (ICT / Computer Science)

MS Word

32. Explain how to insert a header with page numbers and a footer with date.

33. **Describe steps to apply a custom style to all headings in a Word document.**
34. **How do you insert a screenshot from the internet into a Word report?**

MS Excel

35. Create a worksheet showing student attendance for 5 days: Mon 25, Tue 27, Wed 26, Thu 28, Fri 30. Calculate total, average, and maximum attendance using formulas.

36. **Draw a column chart in Excel to represent daily temperatures: Mon 22°C, Tue 24°C, Wed 21°C, Thu 25°C, Fri 23°C.**
37. **Explain how to sort data alphabetically and filter students with scores above 70.**

PowerPoint / Internet

38. List three animation types for slide objects and explain the difference.

39. **Describe steps to add a YouTube video link in a presentation and play it during the slideshow.**

Arts & Music

40. **Draw a geometrical pattern using symmetry and shade the sections to show depth.**
41. **Write a paragraph on the importance of traditional music in cultural identity.**
42. **List four musical instruments from different countries and describe their sound.**

Physical Education / Health

43. **Describe three key skills and one rule each for basketball, hockey, and badminton.**
44. **Explain three exercises to improve flexibility and coordination.**
45. **Suggest four healthy breakfast options that provide energy for school activities.**
46. **Describe two breathing techniques to relieve stress during exams or physical activities.**

End of Test 10 – Grade 6

Notes:

- **Every question is entirely new and never repeated from previous tests.**
- **Covers all core and optional subjects in the updated global syllabus.**
- **Encourages comprehension, calculation, creativity, ICT literacy, and practical application.**
