Percentage and Data

23. Calculate 20 percent of 450.
24. A class has 18 boys and 12 girls. Write the ratio of boys to total students.
25. What does the vertical axis represent in a bar graph?

Section C: Science

Biology

26. Name the process by which plants lose excess water through leaves.
27. State one function of red blood cells.
28. Why are decomposers important in ecosystems?

Physics

29. Define speed and write its formula.

30. What happens when a magnet is brought near iron filings?
31. Identify one source of renewable energy.

Chemistry

32. What is a mixture? Give one example from daily life.
33. Explain why rusting occurs faster in moist air.
34. Name one use of acids in industry.

Earth and Space Science

35. What causes day and night on Earth?
36. Name one layer of the Earth and describe it briefly.

Section D: Social Studies

Geography

37. What is a climate zone?
38. Name one river in Asia and one in Europe.
39. Explain how mountains affect weather patterns.

History

40. What was the purpose of writing in ancient civilizations?
41. Name one reason people migrated in early history.
42. Identify one impact of the Industrial Revolution.

Civics

43. What is democracy?
44. Name one responsibility of local government.

Economics

45. Define trade.
46. What is the difference between needs and wants?

Section E: ICT / Computer Studies

Computer Basics

47. What is computer hardware?
48. Name one input device and its use.

MS Word

49. Explain how to insert a table into a document.
50. What is the function of page margins?

MS Excel

51. Write the Excel formula to find the sum of cells C1 to C6.
52. What is the purpose of a chart in Excel?

Digital Safety

53. What is a strong password?
54. Why should software be updated regularly?

Section F: Islamiyat

Quran and Hadith

55. What guidance does the Quran give about honesty?
56. Write one teaching from a Hadith related to good character.

Beliefs

57. Explain belief in the angels.
