26. **Why are pie charts useful?**

Section C: Science

Biology

27. **What is the role of the stomach in digestion?**
28. **Name one adaptation of desert plants.**
29. **Why are bacteria important for soil fertility?**

Physics

30. Define friction.
31. How does increasing surface roughness affect motion?
32. Name one example of potential energy.

Chemistry

33. Distinguish between physical change and chemical change.
34. What happens when vinegar reacts with baking soda?
35. Name one household use of bases.

Environmental Science

36. What is deforestation?
37. State one effect of air pollution on human health.

Section D: Social Studies

Geography

38. What is a longitude line used for?
39. Name one desert and the continent it is located on.
40. How do rivers help human settlements?

History

41. Why were ancient trade routes important?
42. Name one invention that changed communication in history.
43. What role did farmers play in early civilizations?

Civics

44. What is the rule of law?
45. Name one duty of a responsible citizen.

Economics

46. What is production?
47. Give one example of a service-based occupation.

Section E: ICT / Computer Studies

Computer Fundamentals

48. What is system software?
49. State one function of an operating system.

MS Word

50. How can line spacing be adjusted in a document?
51. What is the purpose of headers and footers?

MS Excel

52. Write the Excel function to find the maximum value in cells A1 to A8.
53. Why is conditional formatting used?

Internet and Safety

54. What is phishing?
55. State one rule for safe online communication.

Section F: Islamiyat

Quran and Hadith

56. What lesson does Islam teach about patience?
57. Mention one Hadith that promotes good manners.

Beliefs

58. What is meant by belief in divine books?
59. Name one angel and his responsibility.

Worship

60. Why is fasting important during Ramadan?
61. What is the significance of intention in worship?

Islamic Ethics
