Test 7 – Grade 7 (Global Syllabus)

Name: _____
Grade / Class: 7
Generation Date: 2026-01-12

Section A: English Language & Literature

Reading Comprehension

Read the passage:

"During the summer camp, Amir explored the wetlands near his town. He observed frogs, dragonflies, and water plants. He noted how each organism played a role in maintaining the ecosystem's balance. One afternoon, a guide explained the effects of pollution on the wetland habitat."

1. **List two organisms Amir observed in the wetlands.**
2. **Why is each organism important for the ecosystem?**
3. **What problem affecting wetlands did the guide explain?**
4. **Summarize Amir's experience in one sentence.**

Read the passage:

"The local library organized a book exchange program. Students could bring old books and receive new ones. The library also arranged storytelling sessions where children shared their favorite stories."

5. **What was the purpose of the book exchange?**
6. **Name one additional activity organized by the library.**
7. **How do storytelling sessions benefit students?**

Grammar and Vocabulary

8. **Identify the verb in the sentence: "The students completed their homework before the bell rang."**
9. **Change to passive voice: "The chef prepared the meal."**
10. **Fill in the blank: She sings _____ (beautiful / beautifully).**
11. **Write an antonym for "ancient."**
12. **Correct the error: Neither of the boys are ready for the test.**

Writing Skills

13. Compose a letter to the principal requesting a science lab upgrade.
14. Write a story beginning with: “A mysterious package arrived at my doorstep…”
15. Create a short report on a school art competition.

Section B: Mathematics

Number Systems

16. Express 7/8 as a decimal.
17. Find the HCF of 36 and 60.
18. A price increased by 15% to reach $230. Find the original price.

Algebra

19. Solve for x: $4x + 9 = 25$
20. Simplify: $5p + 3q - 2p + 7q$
21. Formulate an equation: "Twice a number increased by 8 equals 24."

Geometry

22. Calculate the perimeter of a rectangle with length 12 cm and width 8 cm.
23. Define an obtuse angle.
24. How many diagonals does a pentagon have?

Data Handling

25. Find the mode of: 5, 7, 7, 8, 10, 7, 12
26. Which chart type best shows trends over time?
27. Explain the importance of graphs in presenting data.

Measurement

28. Convert 4500 milliliters into liters.
29. Change 3.2 kilograms into grams.
30. Temperature drops from 28°C to 16°C. Find the change.

Section C: Science

Biology

31. **Name the organ responsible for pumping blood in humans.**
32. **Explain how roots help plants survive.**
33. **What role do bacteria play in soil fertility?**

Physics

34. **Define speed.**
35. **A ball falls freely for 5 seconds. State one factor affecting its motion.**
36. **Give an example of an inclined plane in daily life.**

Chemistry

37. **List three properties of liquids.**
38. **Define solution and give one example.**
39. **Name one acid and one base commonly found at home.**

Environmental Science

40. **Mention one method to reduce air pollution.**
41. **How does using solar panels benefit the environment?**
42. **Define the term "climate change."**

Section D: Social Studies

Geography

43. **Name the largest continent by area.**
44. **What is the purpose of a scale on a map?**
45. **Give one example of a renewable natural resource.**

History

46. **Mention one achievement of the Chinese civilization.**
47. **Explain the importance of the Renaissance period.**
48. **Name one key figure in the Industrial Revolution.**

Civics

49. **Define human rights.**

50. What is the role of a local council in a community?
51. Explain why rule of law is essential in a country.

Economics

52. Define scarcity in economics.
53. What is the difference between fixed and variable costs?
54. Give one example of trade between countries.

Section E: ICT / Computer Studies

Computer Basics

55. What is the main function of RAM in a computer?
56. Name one software used for photo editing.

MS Word

57. How can you change line spacing in a document?
58. What is the purpose of bullets and numbering?

MS Excel

59. Write a formula to calculate the average of cells D1 to D15.
60. Explain how sorting helps in Excel data management.

Internet Awareness

61. Define cyberbullying.
62. Mention one precaution to avoid online scams.

Section F: Islamiyat

Quran and Hadith

63. Give one teaching from the Quran about helping neighbors.
64. Cite a Hadith that stresses patience.

Aqidah

65. List one article of faith in Islam.
66. Why is belief in the Day of Judgment significant?

Worship

67. State one condition for Zakat.
68. Explain the spiritual benefit of performing Salah regularly.

Islamic Ethics

69. Why is honesty important in personal and social life?
70. Give one example of showing respect to elders.

Section G: Arts and Music

71. Define perspective in drawing.
72. Name one string musical instrument.
73. How can music improve concentration?

Section H: Health and Physical Education

74. Define flexibility in physical fitness.
75. Name one individual sport and its benefit.
76. Mention one hygiene practice for students.
77. Describe one rule of basketball.
78. Why is a balanced diet important for adolescents?
