Test 8 – Grade 7 (Global Syllabus)

Name: _____
Grade / Class: 7
Generation Date: 2026-01-12

Section A: English Language & Literature

Reading Comprehension

Read the passage:

"Sara watched the night sky from her balcony. She noticed several constellations and wondered about the stories behind them. Her teacher had explained that ancient civilizations often used stars to navigate and record events. Sara decided to write a small journal about her observations every evening."

1. **What activity is Sara doing at night?**
2. **How did ancient civilizations use stars?**
3. **Why did Sara decide to write a journal?**
4. **Identify the main idea of this passage.**

Read the passage:

"During a science fair, students created models of renewable energy sources. One group built a miniature wind turbine while another demonstrated solar-powered gadgets. Visitors asked questions, and students explained the working of each model clearly."

5. **Name two renewable energy sources featured in the science fair.**
6. **How did students help visitors understand their models?**
7. **Why are renewable energy sources important?**

Grammar and Vocabulary

8. **Identify the adjective in: "The new library books are very interesting."**
9. **Convert to past tense: "She finishes her homework every evening."**
10. **Fill in the blank: He ran _____ (quick / quickly) to catch the bus.**
11. **Write a synonym for “astonished.”**
12. **Correct the error: He don’t know the answer to the question.**

Writing Skills

13. **Write a formal letter to the mayor requesting a community park.**
14. **Compose a short story starting with: “The old clock in the hallway suddenly began to move backwards…”**
15. **Create a brief report on a school environmental awareness campaign.**

Section B: Mathematics

Number Systems

16. **Express 3/16 as a decimal.**
17. **Find the LCM of 18 and 24.**
18. **A jacket’s price decreased by 20% to $160. Find the original price.**

Algebra

19. **Solve for y: 7y − 10 = 25**
20. **Simplify: 6a + 4b − 3a + 2b**
21. **Formulate an equation: "Three times a number decreased by 7 equals 20."**

Geometry

22. **Calculate the area of a triangle with base 10 cm and height 8 cm.**
23. **Define a right-angled triangle.**
24. **How many sides does a hexagon have?**

Data Handling

25. **Find the median of: 12, 15, 17, 19, 21, 24, 28**
26. **Which chart type best shows percentages of a total?**
27. **Explain one benefit of using graphs in statistics.**

Measurement

28. **Convert 5.6 liters into milliliters.**
29. **Change 4500 grams into kilograms.**
30. **Temperature rises from 14°C to 29°C. Find the increase.**

Section C: Science

Biology

31. **Name the organ that filters blood in humans.**
32. **How do leaves help in photosynthesis?**
33. **Mention one role of fungi in the ecosystem.**

Physics

34. **Define force.**
35. **A car accelerates from 0 to 60 km/h in 8 seconds. Name one factor affecting its acceleration.**
36. **Give one example of a pulley in daily use.**

Chemistry

37. **List three characteristics of gases.**
38. **Explain the difference between a mixture and a solution.**
39. **Name one household substance that acts as a base.**

Environmental Science

40. **Suggest one method to conserve water.**
41. **How does planting trees help combat climate change?**
42. **Define the term "ecosystem."**

Section D: Social Studies

Geography

43. **Name the smallest continent by area.**
44. **What is the purpose of using compass directions on maps?**
45. **Give one example of a non-renewable natural resource.**

History

46. **Mention one invention from Ancient Mesopotamia.**
47. **Explain one contribution of the Medieval period to education.**
48. **Name a leader associated with the American Revolution.**

Civics

49. Define civic responsibility.
50. What is the role of a local government?
51. Explain why citizens must obey laws.

Economics

52. Define “goods” and “services.”
53. Differentiate between needs and wants.
54. Give one example of international trade.

Section E: ICT / Computer Studies

Computer Basics

55. Define the function of a CPU.
56. Name one type of computer software.

MS Word

57. How can you insert a table in Word?
58. What is the purpose of headers and footers in documents?

MS Excel

59. Write a formula to find the maximum value in cells A1 to A20.
60. Explain one use of conditional formatting in Excel.

Internet Awareness

61. What is phishing?
62. Name one way to protect your online privacy.

Section F: Islamiyat

Quran and Hadith

63. Quote one Quranic teaching about respecting parents.

64. Mention a Hadith emphasizing honesty.

Aqidah

65. Name one of the five pillars of Islam.
66. Why is belief in angels significant?

Worship

67. What is one condition for performing Hajj?
68. Explain the importance of fasting in Ramadan.

Islamic Ethics

69. Why is patience important in dealing with problems?
70. Give one example of showing kindness to neighbors.

Section G: Arts and Music

71. Define shading in drawing.
72. Name one wind instrument.
73. How can practicing music improve memory?

Section H: Health and Physical Education

74. Define endurance in fitness.
75. Name one team sport and its benefit.
76. Mention one habit that helps prevent diseases.
77. Describe one rule of football (soccer).
78. Why is hydration important during exercise?
