Section B: Mathematics

Number Systems

17. Express 7/8 as a decimal.
18. Find HCF of 36 and 60.
19. A laptop price increased by 15% to $575. Find its original price.

Algebra

20. Solve for x: $9x + 7 = 34$
21. Simplify: $5p + 3q - 2p + 4q$
22. Write an equation: "Twice a number increased by 9 equals 25."

Geometry

23. Find the perimeter of a rectangle with length 12 cm and width 8 cm.
24. Define an isosceles triangle.
25. How many diagonals does a pentagon have?

Data Handling

26. Find the mode of: 8, 12, 15, 8, 20, 12, 8
27. Which type of graph shows trends over time?
28. Mention one advantage of using tables to present data.

Measurement

29. Convert 3.75 liters to milliliters.
30. Convert 2500 grams to kilograms.
31. Temperature drops from 30°C to 18°C. Calculate the change.

Section C: Science

Biology

32. Name the organ responsible for pumping blood.
33. How do roots help a plant?
34. Mention one harmful effect of bacteria on humans.

Physics

35. Define acceleration.
36. A ball falls from a height of 20 m. Name the force acting on it.
37. Give one example of an inclined plane used at home.

Chemistry

38. List three properties of solids.
39. Explain one difference between a solution and a suspension.
40. Name one acidic fruit.

Environmental Science

41. Suggest a way to reduce air pollution.
42. How does recycling help conserve natural resources?
43. Define renewable energy.

Section D: Social Studies

Geography

44. Name the longest river in the world.
45. What is the importance of map symbols?
46. Give one example of a fossil fuel.

History

47. Mention one achievement of Ancient China.
48. Describe one social change during the Renaissance.
49. Name a famous explorer from the Age of Discovery.

Civics

50. Define “democracy.”

51. What is the purpose of voting?
52. Give one example of civic responsibility in daily life.

Economics

53. Define “consumer” and “producer.”
54. Differentiate between trade and barter.
55. Mention one local product exported internationally.

Section E: ICT / Computer Studies

Computer Basics

56. Define input device.
57. Name one example of system software.

MS Word

58. How can you change page orientation to landscape?
59. Explain the use of bullets and numbering in documents.

MS Excel

60. Write a formula to calculate the average of B1 to B15.
61. Name one use of sorting data in Excel.

Internet Awareness

62. Define “spam email.”
63. Mention one way to create a strong password.

Section F: Islamiyat

Quran and Hadith

64. Write one Quranic teaching about helping others.
65. Mention a Hadith emphasizing respect for teachers.

Aqidah

66. Name one article of faith in Islam.
67. Why is belief in the Day of Judgment important?

Worship

68. List one requirement for Salah (prayer).
69. Explain the significance of Zakat in society.

Islamic Ethics

70. Give one example of honesty in daily life.
71. Why is showing gratitude important?

Section G: Arts and Music

72. What is perspective in drawing?
73. Name one string instrument.
74. How can practicing rhythm improve music skills?

Section H: Health and Physical Education

75. Define flexibility in fitness.
76. Name one individual sport and its benefit.
77. Mention one method to maintain personal hygiene.
78. Describe one rule of basketball.
79. Why is warming up important before exercise?
