Test 6 – Grade 8

Name: _____
Grade / Class: 8

Section A: English Language & Literature

1. Reading Comprehension
Read the passage and answer the questions:

"During a cultural fair, Omar set up a stall showcasing traditional crafts from his region. He demonstrated pottery making and explained the significance of local patterns. Visitors were fascinated and asked questions about techniques and materials. By the end of the day, Omar felt proud of sharing his heritage with others."

a) What activity did Omar demonstrate at the fair?
b) Name two things visitors learned about from Omar.
c) How did Omar feel at the end of the event?
d) Rewrite the passage in four sentences in your own words.

2. Grammar & Vocabulary
a) Combine these sentences using an appropriate conjunction:
"The lights went out. Everyone continued working by candlelight."

b) Identify the adverbs in the sentence:
"The young pianist played the piano beautifully and confidently."

c) Correct the grammatical error:
"Each of the students have completed their projects successfully."

d) Convert the following into reported speech:
"Amina said, 'I am preparing a presentation for my class tomorrow.'"

3. Writing
Write a short essay (120–150 words) on the topic: "Impact of Social Media on Teenagers". Include benefits, challenges, and personal perspective.

Section B: Mathematics

1. Algebra
a) Solve for x:
$7x - 9 = 2x + 21$

b) Factorize:
$x^2 - 11x + 24$

c) Simplify:
$5m^2n - 3mn^2 + 2m^2n$

2. Geometry & Mensuration
a) The base of a trapezium is 12 cm and 8 cm, height 10 cm. Find the area.
b) A sphere has radius 6 cm. Find its volume.

3. Ratio, Proportion & Percentage
a) A tablet costs $250. It is sold with a 12% discount. Calculate the price.
b) If 7 pencils cost $21, find the cost of 15 pencils.

4. Data Handling
The scores of 10 students in a science quiz: 18, 20, 17, 19, 16, 21, 18, 20, 19, 17.
a) Find the mean, median, and mode.
b) Represent the data using a frequency table.

Section C: Science

1. Biology
a) Explain the functions of the human liver.
b) Describe the process of transpiration in plants.
c) State two differences between reptiles and amphibians.

2. Physics
a) A train accelerates from 10 m/s to 30 m/s in 5 seconds. Calculate acceleration.
b) Define potential energy and provide one example.
c) Differentiate between reflection and absorption of light.

3. Chemistry
a) Identify elements, compounds, or mixtures:

- **Carbon dioxide**
- **Sulfur**
- **Saltwater**

b) Write a balanced chemical equation for the reaction of zinc with hydrochloric acid.

4. Environmental Science
a) Name two water pollutants and their effects.
b) Suggest three ways to conserve energy at home.

Section D: Social Studies

1. History
a) Name two major revolutions in Asia during the 20th century and their outcomes.
b) Explain the importance of the Industrial Revolution in Europe.
c) Identify countries forming the Allied Powers in World War I.

2. Geography
a) Define longitude and explain its role in time zones.
b) Name the largest rainforest in the world and its continent.
c) Discuss two effects of soil erosion on agriculture.

3. Civics / Political Science
a) Compare presidential and parliamentary systems of government.
b) List two responsibilities of citizens during elections.

4. Economics
a) Explain the concept of market equilibrium with an example.
b) Differentiate between gross and net income.

Section E: ICT / Computer Studies

1. Computer Basics
a) What is a database? Give an example.
b) Name one input device and one secondary storage device.

2. Applications
a) Which spreadsheet function calculates the average of a dataset?
b) Give two uses of drawing software in education.

3. Programming Basics
a) Define a function in Python and give an example.
b) Write Python code to print all even numbers from 1 to 20.

4. Cyber Awareness
a) Explain phishing and how to avoid it.
b) Mention two ways to secure passwords online.

Section F: Islamiyat

1. Quran & Hadith
a) Name two ethical principles taught in the Quran.
b) Narrate a Hadith that emphasizes helping the needy.

2. Aqidah / Belief
a) List the five pillars of Islam.
b) Explain the importance of Tawheed in daily life.

3. Fiqh / Worship
a) What is the significance of Zakat for a Muslim?
b) Describe the spiritual benefits of performing Salah regularly.

4. Islamic Ethics & Morality
a) How does Islam promote honesty in trade?
b) Explain the importance of cleanliness in Islam.

Section G: Arts & Music

1. Visual Arts
a) Explain how contrast enhances visual art.
b) Name two complementary colors.

2. Music
a) Define rhythm and tempo.
b) Give an example of a percussion instrument.

Section H: Health & Physical Education

1. Physical Fitness
a) Name two exercises to strengthen the core muscles.
b) List one team sport and one individual sport.

2. Health & Hygiene
a) Why is proper sleep important for teenagers?
b) Mention two ways to prevent respiratory infections.

3. Safety & Environment
a) State one safety rule for laboratory experiments.
