Grade 6 – Test 9

Name: _____
Grade/Class: _____

Purpose:
This test evaluates students across all subjects from the global Grade 6 syllabus, ensuring new, unique questions to encourage critical thinking and learning.

Generation Date: 8 January 2026

Instructions:

1. **Attempt all questions.**
2. **Show all working for Math and Science.**
3. **Draw and label diagrams wherever required.**
4. **ICT answers should include steps or illustrations.**
5. **Use examples from daily life for clarity in answers.**

English Language & Literature

1. **Read the passage:**
   "During the storm, Sara noticed that her neighbor's roof was leaking. She quickly ran to help and covered the opening with a tarpaulin."

- **Question: How did Sara respond to the situation, and what actions did she take?**

2. **Write a formal letter of complaint to the local council about broken streetlights in your area.**
3. **Identify the adjectives, conjunctions, and pronouns in this sentence:**
   "Although it was raining, the boys happily played football in the yard."
4. **Change the following into past perfect tense:**
   "The scientist conducts experiments in the laboratory."
5. **Summarize this paragraph in three sentences:**
   "Deforestation has reduced wildlife habitats. Animals lose shelter and food sources, which impacts biodiversity. Human activities such as logging and agriculture are the main causes."

Mathematics

6. **A triangular prism has a base area of 30 cm^2 and a height of 15 cm. Calculate its volume.**
7. **Solve for x:**

5x−7=3x+115x - 7 = 3x + 115x−7=3x+11

8. **A shopkeeper sold 120 notebooks at $2.50 each and 80 pens at $1.20 each. Find the total revenue.**
9. **The marks of 8 students in a quiz are: 12, 14, 16, 12, 15, 17, 14, 12. Find mean, median, mode, and range.**
10. **Draw a pie chart representing the favorite fruit of students: Apple 15, Banana 10, Mango 20, Orange 5.**
11. **Convert 1500 grams into kilograms and 3.5 liters into milliliters.**

Science

Biology
12. Draw and label the human circulatory system, showing the flow of blood through the heart.

13. **Explain how stomata help plants in gas exchange and control water loss.**
14. **Name two beneficial fungi and bacteria and explain their uses in food or medicine.**

Physics
15. Define acceleration and calculate it if a car increases its velocity from 20 m/s to 50 m/s in 5 seconds.

16. **Explain how a prism separates white light into a spectrum and draw a labeled diagram.**
17. **Describe how an inclined plane makes work easier and give one real-life example.**

Chemistry
18. Identify solvent and solute in sugar water and explain the difference.

19. **Classify vinegar and soap solution as acidic, basic, or neutral and explain using pH scale.**

Environmental Science
20. Suggest three ways to reduce air pollution in cities.

21. **Explain the impact of melting glaciers on sea levels and coastal communities.**

Social Studies / Civics / Geography / History

22. **Explain the difference between latitude and longitude and give one example of each.**
23. **Name five major deserts of the world and describe one unique feature of any one desert.**
24. **Write a paragraph about the contributions of Ancient Egypt in architecture and science.**
25. **Explain the importance of voting in a democratic country.**
26. **Define goods and services and provide two examples of each from your community.**
27. **Discuss one major invention from the Middle Ages and its effect on trade or communication.**

Islamiyat / Moral & Religious Education

28. **Explain the importance of Zakat and its benefits to society.**
29. **Narrate a Hadith about kindness to neighbors and explain its moral lesson.**
30. **List and explain the six articles of faith in Islam.**
31. **Describe three ways to demonstrate honesty and integrity in school.**

Information & Communication Technology (ICT / Computer Science)

MS Word

32. Explain how to insert a table and merge cells in a Word document.

33. **Describe steps to create a bullet list with custom symbols.**
34. **How can you add page numbers in Roman numerals to the first three pages and Arabic numbers for the rest?**

MS Excel

35. Create a worksheet of student marks: Math 88, Science 92, English 85, Arts 75. Calculate highest, lowest, and average marks using formulas.

36. **Draw a bar chart in Excel showing weekly sales: Mon 50, Tue 70, Wed 60, Thu 80, Fri 90.**
37. **Explain how to apply a filter to show only students scoring above 80.**

PowerPoint / Internet

38. **List three types of slide transitions and explain how each affects a presentation.**

39. **Describe the steps to embed a hyperlink to a website in a PowerPoint slide.**

Arts & Music

40. **Draw a still life of a fruit basket using shading to show depth and light.**
41. **Write a paragraph on how music can influence culture and traditions.**
42. **List four instruments from different cultures and describe the sound each produces.**

Physical Education / Health

43. **Explain three rules and one skill each for volleyball, tennis, and cricket.**
44. **Describe three stretches that prepare the body for running and jumping exercises.**
45. **Suggest four balanced meals for a week ensuring all nutrients are covered.**
46. **Write three methods to maintain mental well-being during exam periods.**

□ End of Test 9 – Grade 6

Notes:

- **Each question is unique and never repeated from previous tests.**
- **Covers all subjects in the updated global syllabus.**
- **Designed to challenge comprehension, calculation, creativity, and practical skills.**
