Test 5 – Grade 9

Name: _____
Grade / Class: 9

Section A: English Language & Literature

1. Reading Comprehension

Read the passage and answer the questions:

"After a powerful storm damaged several houses in the coastal town, Lina and her classmates organized a relief drive. They collected clothes, arranged food packets, and helped clean public spaces. The experience taught them cooperation, leadership, and the value of community service."

a) What event caused damage in the town?
b) Mention two actions taken by Lina and her classmates.
c) What lessons did the students learn from this experience?
d) Rewrite the main idea of the passage in your own words.

---

2. Grammar and Language

a) Join the sentences using a suitable linker:
"The road was blocked. The rescue team found another route."

b) Identify the type of clause in the sentence:
"She kept practicing until she mastered the skill."

c) Rewrite in active voice:
"The rules were explained by the instructor."

d) Correct the sentence:
"Each of the players have submitted their forms."

e) Use the word *adapt* in a sentence of your own.

---

3. Writing Skills

Write a paragraph of 130–160 words on:
"How Education Shapes Responsible Citizens"

---

4. Literature Understanding

a) Explain how setting influences the mood of a story.
b) Describe one internal conflict faced by a character you have studied.
c) Explain the difference between a theme and a moral.

Section B: Mathematics

1. Algebra

a) Solve:
$4(2x - 3) = 5x + 6$

b) Factor completely:
$x^2 - 13x + 36$

c) Simplify:
$8a^2b - 3ab^2 + 5a^2b$

d) Find values of x and y:
$2x + y = 11$
$x + y = 7$

---

2. Geometry

a) Find the area of a trapezium with parallel sides 10 cm and 16 cm, height 7 cm.
b) Calculate the circumference of a circle with diameter 21 cm.
c) Find the midpoint of the line joining (2, −4) and (8, 6).

---

3. Trigonometry

a) If $\tan \theta = 5/12$, find $\sin \theta$ and $\cos \theta$.
b) Evaluate: $\sin 30° + \cos 60°$
c) A tower subtends an angle of elevation of 30° from a point 40 m away. Find the height of the tower.

---

4. Commercial Mathematics

a) A jacket is marked at $200 and sold at a discount of 12%. Find the selling price.
b) If the ratio of boys to girls is 7:5 and total students are 48, find the number of girls.
c) Simple interest on a sum is $360 at 6% per year for 5 years. Find the principal.

---

5. Statistics and Probability

a) The ages of 8 students are: 14, 15, 14, 16, 15, 17, 16, 15. Find the mode.
b) Draw a frequency table for the data.
c) A card is drawn from a standard deck. Find the probability that it is a red card.

Section C: Science

1. Biology

a) Describe the structure and function of a neuron.
b) Differentiate between mitosis and meiosis.
c) Explain how enzymes affect digestion.
d) Define biodiversity and state its importance.
e) What happens when the balance of an ecosystem is disturbed?

---

2. Physics

a) Calculate speed if a cyclist covers 900 m in 2 minutes.
b) Define momentum and write its formula.
c) Explain why seat belts are important in vehicles.
d) A force of 25 N acts on a mass of 5 kg. Find acceleration.
e) Describe reflection of light with one example.

---

3. Chemistry

a) Classify the following:
Calcium, Carbon monoxide, Soil

b) Write a balanced equation for:
Iron + Sulphur → Iron sulphide

c) Define acid with one laboratory example.
d) State two properties of metals.
e) Explain the process of rusting and one prevention method.

---

4. Environmental Science

a) What is climate change?
b) Mention two effects of global warming on oceans.
c) Explain why forests are called "lungs of the Earth".
d) Suggest two sustainable energy sources.

Section D: Social Studies

1. History

a) State two causes of the First World War.
b) Explain the importance of the Silk Road.
c) How did nationalism influence independence movements?

---

2. Geography

a) Define weathering and name its three types.
b) Identify one major river of South America and its importance.
c) Explain how latitude affects temperature.

---

3. Civics / Political Science

a) Define constitution.
b) Explain the role of judiciary in a democratic system.
c) Why is equality important in society?

---

4. Economics

a) Define scarcity with an example.
b) Differentiate between needs and wants.
c) Explain how saving benefits an economy.

Section E: ICT / Computer Studies

1. Computer Fundamentals

a) Explain the function of an operating system.
b) Difference between RAM and ROM.

---

2. Software Applications

a) Name the spreadsheet formula used to calculate average.
b) Give two uses of word processing software in education.

---

3. Programming Concepts

a) What is an algorithm?
b) Write a Python statement to display numbers from 1 to 5.

---

4. Digital Safety

a) What is identity theft?
b) Mention two safe practices while using social media.

Section F: Islamiyat

1. Quran and Hadith

a) Mention two teachings of Surah Al-Hujurat.
b) Write one Hadith related to good character.

---

2. Aqidah

a) Explain belief in Angels.
b) Why is belief in divine books important?

---

3. Ibadat

a) Define Salah and its purpose.
b) What is the social benefit of Zakat?

---

4. Islamic Morality

a) How does Islam encourage justice?
b) Explain Islamic teachings about respecting parents.

Section G: Arts and Music

1. Visual Arts

a) What is proportion in drawing?
b) Name one warm color and one cool color.

---

2. Music

a) Define rhythm.
b) Name one traditional musical instrument from any culture.

Section H: Health and Physical Education

1. Physical Health

a) Define endurance.
b) Name two activities that improve cardiovascular fitness.

---

2. Personal Health

a) Why is sleep important for teenagers?
b) State two effects of poor posture.

---

3. Safety Awareness

a) Mention one rule for laboratory safety.
b) How can road accidents be reduced?
